

## Cotton Rags

Durable versatile absorbent cotton rags

### Description

Cotton Rags are versatile cleaning and wiping materials made from soft, absorbent cotton fibers. They are ideal for industrial, automotive, and household applications, offering excellent absorption, durability, and reusability. Commonly used for cleaning machinery, wiping spills, polishing surfaces, or applying oils and solvents, cotton rags provide a cost-effective and environmentally friendly solution for maintenance and general-purpose cleaning tasks. Their softness and strength make them safe to use on delicate surfaces while withstanding heavy-duty cleaning needs.
